

Paschal Chidebe Omereife

FULL-STACK SOFTWARE ENGINEER | Lagos, Nigeria | Open to Remote

[paschalomereife.vercel.app](#) | [paschalfidel@gmail.com](#) | +234 803 897 3539 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full-stack engineer who builds and ships web products with React, Node.js, Express, MongoDB, and PostgreSQL. Delivered a location-based services marketplace, a movie discovery platform with account features, and a behaviour-based recommendation engine. Six years in telecom support and experience running a technology agency bring disciplined troubleshooting, clear client communication, and a practical focus on reliable software.

TECHNICAL SKILLS

Frontend React, JavaScript, Tailwind CSS, responsive UI | **Backend** Node.js, Express, REST APIs | **Data** PostgreSQL, MongoDB | **Tools** Git, Vite, Vercel, Render

SELECTED ENGINEERING WORK

HandiGo | *React, Express, PostgreSQL, Geolocation* 2025 [Live](#) | [Code](#)

Built an end-to-end marketplace that helps people in Nigeria discover nearby artisans and service providers, with location-aware search and a relational API.

SpecReel | *React, Node.js, MongoDB, REST API* 2024 [Live](#) | [Code](#)

Developed authentication, persistent watchlists, reviews, and API response caching so repeat movie searches avoid unnecessary external requests.

Spec360 Recommender | *Node.js, JavaScript, Personalisation* 2024 [Live](#) | [Code](#)

Created and deployed a lightweight recommendation service that ranks agency offerings from the services a visitor has already explored.

Spec360.com.ng | *React, Tailwind CSS, Responsive UI* 2023 [Live](#) | [Code](#)

Built and iterated the production website for a Lagos technology agency, covering product, repair, connectivity, and web service journeys.

PROFESSIONAL EXPERIENCE

Founder | *Spec360 Communication* 2017 - Present

Lead client discovery, scope digital projects, and deliver responsive web products; built the company website and recommendation experience in React and Node.js.

IT Support Volunteer | *David Christian Centre, Lagos* 2024 - Present

Keep live events running by troubleshooting networks, AV systems, and workstations under time pressure.

Technical Support | *Tech Mahindra / Airtel Nigeria* 2017 - 2023

Diagnosed telecom issues, coordinated escalations with backend teams, and explained technical fixes clearly to non-technical customers.
