Full-Stack Software Engineer · Lagos, Nigeria

paschalfidel@gmail.com · +234 803 897 3539 · linkedin.com/in/paschalomereife · github.com/paschalfidel

SUMMARY

Full-stack engineer with 7+ years in customer-facing and IT support roles, now building scalable web applications with React and Node.js. Combines technical delivery with strong communication — experienced in remote collaboration, production troubleshooting, and shipping user-focused products.

TECHNICAL SKILLS

Frontend: React, JavaScript, Tailwind CSS · Backend: Node.js, Express, REST APIs · Databases: MongoDB, PostgreSQL · Tools: Git, Vite · Other: IT Support, Technical Troubleshooting

EXPERIENCE

IT Support Specialist (Volunteer)

2024 — Present

David Christian Centre, Lagos

Maintain IT systems and support live technical operations. Real-time troubleshooting for AV, networks, and workstations during events.

Managing Director & Founder

2017 — Present

Spec360 Communication

Founded and scaled a tech solutions agency. Lead client relationships, project delivery, and hands-on engineering for web products.

Customer Service / Technical Support

2017 — 2023

Tech Mahindra (Airtel Nigeria BPO)

Resolved complex telecom technical issues at scale. Coordinated with backend teams and explained technical problems to non-technical users.

SELECTED PROJECTS

SpecReel

2024

Movie recommendation platform

Full-stack app with auth, watchlists, and reviews. React, Node.js, MongoDB, REST API with caching.

Neara.ng

2024 — Present

Location-based service marketplace

Connects users to nearby service providers. React, Express, PostgreSQL, geolocation.

Spec360 Recommender

2023

Recommendation engine

Personalization layer for agency clients. Node.js with behaviour-based recommendations.
